Wout De Maeseneer

I'm Wout De Maeseneer and I made this CV so that you can get a better understanding of who I am, what I can do and what I like to do.

Education

I have a high school diploma in Economics Modern Languages Spanish, obtained in DvM. Now I am already studying my second year of applied computer science at HoGent.

Work Experience

In 2018, I had to work for 1 day with Word for an independent.

In 2019 I went to work for two days at the thrift store in Aalst, there I got the tasks of filling the shelves and making sure everything is tidy. Since 2021 I have been working on a few personal projects, such as a website for my drone photography and recently a project for a crypto related website and related stuff.

Skills

Photoshop: I have mastered the basics of Photoshop.

Sony Vegas: I can work very well with this program, I've been using it for years.

Premiere Pro: Recently I started working with this program as a replacement for the less sophisticated Sony Vegas. I know the basics of this program.

After Effects: I use this program in combination with Premiere Pro. I know the basics of this too.

Word & Excel: I learned to work with Word and Excel at school.
